

## **Crouse Domestic Network (CDN) Crouse Medical Plan 2019 Union and Non-Union Employees as of 5.30.19**

---

There are many types of Crouse Domestic Network (CDN) providers, including (but not limited to) **physicians, physician assistants (PA), nurse practitioners (NP), podiatrists, chiropractors, psychologists, etc.**

### ***Ways to Verify CDN Status:***

1. To verify CDN status for **any provider type** or service, call Excellus using the number on the Crouse health plan ID card to verify CDN status.
2. Use the Excellus website to verify status or obtain a listing of CDN providers (see instructions below). When using the site, please note the following:
  - Specialty and provider type search options are listed under “Doctor Type.” This search option includes physicians and some other provider types such as podiatrist, chiropractor, and licensed clinical social worker.
  - In most cases, plan members must call Excellus to verify CDN status for NP’s and PA’s because the site does not list these providers. For example when searching for Primary Care → Internal Medicine, only physicians are displayed in the search results, even though there are CDN Internal Medicine NP’s and PA’s. Step 3 below may also help determine NP and PA status.
3. Plan members can also determine CDN provider status at the group level. The CDN includes providers in “Whole Groups” and “Split Groups” (see group listing at the end of this document).
  - > **WHOLE GROUP: All providers, regardless of provider type**, associated with a “Whole Group” are CDN providers.
  - > **SPLIT GROUP: Only certain providers** associated with “Split Groups” are considered part of the CDN. Use the Steps 1 and 2 to verify CDN status.

### ***Excellus Website Instructions:***

- > Visit [www.excellusbcbs.com/findadoctor](http://www.excellusbcbs.com/findadoctor).
- > Select and click “Local Provider Network Search.”
- > In “Step 1 – Select Your Plan,” click on the downward arrow to display a list of various Excellus provider networks.
- > Scroll down to locate “Crouse Domestic Network” and click on this text.
- > In “Step 2 – Narrow Your Search,” enter information as requested on the screen to access physicians.
