Crouse Health... Simply the Best

"Going home today finally after five days post-op! Another week of bedrest at home to go but healing up just fine so far. I cannot thank the staff at Crouse Hospital (Samantha, Mandy and all the rest of these great people...) enough for the genuine care and professionalism they've shown me through this whole process. They really truly are heroes in my book." - Grateful patient

"I started working at Crouse Hospital two weeks ago. I have worked in healthcare my entire life and I feel that helping people is my calling. I have to say it has been challenging in these times but I have a great, friendly team who are always willing to help me as I learn the policies of a new workplace. There is no I in TEAM! I am excited for my new journey and grateful for the opportunity to work in a place full of friendliness. If you are a CNA or an RN looking for a job, we need you!" - New employee
