

***Do you want to help and inspire the next generation of healthcare workers?  
Volunteer with the Henninger Health Careers Academy!***

Students are studying Health Professions, Medical Assisting, and Clinical Lab Technology. We are looking for professionals who are interested in volunteering to do “career coaching” at Henninger (in-person). This is where a volunteer will do an activity with a small group of students, pre-planned by the school. It is for one class period (about 45 minutes). Topics include building resumes, professionalism, teamwork, etc. Career coaches just need to show up. Volunteers can participate as much or as little as they want.

Confirmed volunteers will receive additional activity details. Career coaches will be required to complete an online background check.
