

Crouse Domestic Network (CDN)

Crouse Health Medical Plan

as of 11/1/2024

There are many types of Crouse Domestic Network (CDN) providers, including (but not limited to) **physicians, physician assistants (PA), nurse practitioners (NP), podiatrists, chiropractors, psychologists, etc.**

Ways to Verify CDN Status:

1. Refer to groups listed at the end of this document. As noted, the CDN includes providers in “Whole Groups” and “Split Groups.”
 - > **WHOLE GROUP: All providers** associated with a “Whole Group” are CDN providers (including NP’s and PA’s).
 - > **SPLIT GROUP: Only certain providers** associated with “Split Groups” are part of the CDN, use Steps 2 or 3 to verify status.
2. To verify CDN status for **any provider**, call Excellus using the number on the Crouse health plan ID card.
3. Use the Excellus website to verify CDN status. Note the following when using the site:
 - Website **does not list NP’s or PA’s**, plan members must call Excellus to verify status. If NP or PA is part of a “Whole Group” listed in this document, provider is in CDN.
 - “Doctor Type” will include specialty and provider type search options. This search option includes physicians and some other provider types such as podiatrist, chiropractor, and licensed clinical social worker.

Excellus Website Instructions:

- > Visit www.excellusbcbs.com
- > Select “Login/Register” → Member
- > Select Find a Doctor → Find a Doctor, Provider or Facility
- > Select “Local/National Search”
- > Use Search Tool to find provider by name, specialty, and place
- > Once results appear, providers in the CDN will show as “Crouse Preferred Provider”
